Section 120.57(3)(a), F.S. requires the following statement to be included in the solicitation: "Failure to file a protest within the time prescribed in section 120.57(3), Florida Statutes, shall constitute a waiver of proceedings under Chapter 120, Florida Statutes."

3.7 Sourcing Tool Tips

When working in the Sourcing Tool, be aware of the twenty (20) minute time-out function (with a two (2) minute warning in the tool. This means that you should save your work (click the SAVE button) at intervals of less than twenty minutes to ensure your entries (since last saved) are not lost.

Please note that clicking the SAVE button within the Sourcing Tool only saves your bid responses. The SAVE button **does not transmit your bid response to the State**. In order to transmit your bid response to the State, you must click the **SUBMIT** button on the SUMMARY page of the bid response.

After clicking the SUBMIT button, it is the **Respondents** responsibility to check your submitted bid response within the Sourcing Tool to verify that your response is accurately and completely captured within the Sourcing Tool. You must do this while there is time remaining in the response period in case you discover an error and need to resubmit a revised bid response.

To validate your bid response, you should do the following before the bidding period ends:

- a. Go to the "My Bids / My Responses" tab within Sourcing Tool after you submitted your bid response
- b. Click on the Bid ID number of your last submitted bid response
- c. Review entire bid response to make sure all responses are complete, accurate and as you intended to submit.

Minimum areas to check are:

- ✓ Yes/No questions – Is the displayed answer correct?
- ✓ All uploaded document files / scanned documents – Can you open attached document and clearly view entire content?
- ✓ Offline electronic backup copy sent to the State (if applicable) - Can you open attached document and clearly view entire content? Does content of this file match your bid response within the tool (e.g., not an earlier version or working copy)?
- ✓ Pricing Information – Are all prices you intended to submit visible and accurately captured within Sourcing Tool?

IT IS STRONGLY RECOMMENDED THAT YOU SUBMIT YOUR BID AS EARLY AS POSSIBLE. YOU SHOULD ALLOW TIME TO

RECEIVE ANY REQUESTED ASSISTANCE AND TO RECEIVE VERIFICATION OF YOUR SUBMITTAL; WAITING UNTIL THE LAST HOURS OF THE SOLICITATION COULD IMPACT THE TIMELY SUBMITTAL OF YOUR BID.

DO NOT RELY ON THE "MYFLORIDAMARKETPLACE" SOURCING TOOL'S TIME REMAINING CLOCK. THE OFFICIAL SOLICITATION CLOSING TIME SHALL BE AS REFLECTED IN THE TIMELINE (SECTION 1.4) OF THIS ITN.

The MyFloridaMarketPlace (MFMP) Sourcing Tool's time remaining clock is NOT the official submission date and time deadline, it is intended only to approximate the solicitation closing and may require periodic adjustments

3.8 Email Notification

Respondents are reminded that the Sourcing Tool's email notifications are an option provided to respondents as a courtesy. The State of Florida is not under any obligation to provide, and does not guarantee that respondents will receive, email notifications concerning any posting, amendment or close of solicitations (ITNs).

Vendors are responsible to check the Sourcing Tool and / or the Vendor Bid System for information and updates concerning solicitations.

3.9 Submittal of Response.

Respondents shall view and download the documents in the MFMP Sourcing Tool (http://dms.myflorida.com/egovernment_tools/myflorida_marketplace). Each Respondent is responsible for ensuring that its response and all associated documents are submitted before the proper date and time. In the event a Respondent submits more than one response, only the last response received prior to the response deadline specified in Section 1.4 shall be considered for award. Other responses will not be opened. Offers not submitted as indicated in this section shall be rejected.

The Department shall not consider late responses and the MyFloridaMarketPlace Sourcing Tool will NOT accept responses after the due date and time specified in the Event Timeline, or as amended by the Department. **RESPONSES MUST BE SUBMITTED IN THE MYFLORIDAMARKETPLACE SOURCING TOOL BEFORE THE DATE AND TIME SPECIFIED IN THE EVENT TIMELINE.**

Failure to provide all requested information within the response package before the response deadline specified in Section 1.4 may result in rejection of the response.

DO NOT RELY ON THE MFMP SOURCING TOOL'S TIME-REMAINING CLOCK. The official response deadline shall be as reflected in Section 1.4, Timeline, of this solicitation. The MFMP Sourcing Tool's time-remaining clock is intended only to approximate the solicitation closing, and may require periodic adjustments.

3.9.1 Response Format / Instructions

The Respondent shall review this entire ITN, complete the Certifications Table in Section 3.11, and submit all forms required as part of the Respondent's bid proposal. Failure to provide completed documents, forms, or certification documentation may result in the disqualification of the respondent.

A Respondent shall, in a separate and clearly identified response paragraph(s), expressly condition or qualify its Response on acceptance or identify any proposed changes to the terms and conditions outlined in this ITN. To facilitate this process, the Respondent is required to review Sections 3, 5, and 6 on a provision by provision basis. Each Respondent is required to provide information regarding its “Financial and Industry Standing and Strength” in order to demonstrate that it is financially stable, in good standing with creditors and manufacturers, and has the resources necessary to perform the services outlined in this ITN on a state-wide basis. The State requires each Respondent to provide a Supplier Qualifier Report (SQR) prepared by Dun & Bradstreet (D&B), in accordance with the instructions below. The SQR is a standard report that details financial and operational capabilities. This report must be submitted to the Department **prior to the proposal opening date and time**. Each Respondent will be responsible for the cost and timely submission of this report. Each Respondent will be assigned points during the evaluation phase of the solicitation based on the D&B score.

The prospective Contractor will request the SQR from D&B at:

<https://sor.dnb.com/sor/jsp/forms/SOF.jsp?SORTAG1=JQ37hS4r&SORTAG2=j58Gjk4x>

1. Enter the ITN number in the text field entitled "Enter your RFP Number" and select "Submit."
2. Enter your company's Duns Number. (If you don't know your company's Duns number, you may use the search feature to find it.)
3. Confirm Registration
4. Enter payment method and information and complete registration. The cost of the preparation of the D&B report shall be the responsibility of the Respondent.

Respondents are advised to allow a minimum of ten (10) business days for D&B to process a report request. If the Department does not receive an SQR from D&B prior to the opening date and time of the solicitation but one is submitted as part of a Respondent's Response, the Respondent shall be required to demonstrate that it requested the SQR after the posting date of the ITN and that the SQR was requested for this particular solicitation. Once the process is complete, a copy of the report will be provided to the Department and an identical report will be sent to the Respondent. If the Department does not receive a report or cannot determine on the face of the document that the SQR is that of the proposing entity, then the Department will instruct the Evaluation Team to award zero points to that company for that evaluation category. It is the responsibility of the Respondent to ensure the timely submission of a D&B report to the Department prior to the opening date of the proposals. The Department will use the financial scoring scale below when evaluating and scoring the financial viability of the prospective Contractors.

Financial Scoring Scale:

SQR Risk Score		Points Assigned
1	Lowest Risk Rating	24.0
2		21.0
3		18.0

The Department, at its discretion, may require Respondents to make formal presentations of their responses.

After evaluating the responses, on the date indicated on the Timeline, the Department shall electronically post the rankings in the MFMP Sourcing Tool.

After negotiations, on the date indicated on the Timeline, the Department shall electronically post a notice of intent to award. If the ranking or award is delayed, in lieu of posting it on the date indicated on the Timeline, the Department shall post a notice of the delay and a revised date for posting the ranking or notice of intent to award. Any person who is adversely affected by the decision shall file with the Department a notice of protest within 72 hours after the electronic posting (see Section 2.20 of the General Instructions (PUR 1001) for more information on protests). All purchase orders shall bear the Contract or solicitation number, shall be placed by the Customer directly with the Contractor, and shall be deemed to incorporate by reference the Contract and solicitation terms and conditions. Any discrepancy between the Contract terms and the terms stated on the Contractor's order form, confirmation, or acknowledgement shall be resolved in favor of terms most favorable to the Customer. A purchase order for services within the ambit of section 287.058(1) of the Florida Statutes shall be deemed to incorporate by reference the requirements of subparagraphs (a) through (f) thereof. Customers shall designate a contract manager and a contract administrator as required by subsections 287.057(15) and (16) of the Florida Statutes.

3. Product Version.

Purchase orders shall be deemed to reference a manufacturer's most recently release model or version of the product at the time of the order, unless the Customer specifically

requests in writing an earlier model or version and the contractor is willing to provide such model or version.

4. Price Changes Applicable only to Term Contracts.

If this is a term contract for commodities or services, the following provisions apply.

- (a) Quantity Discounts. Contractors are urged to offer additional discounts for one time delivery of large single orders. Customers should seek to negotiate additional price concessions on quantity purchases of any products offered under the Contract. State Customers shall document their files accordingly.
- (b) Best Pricing Offer. During the Contract term, if the Customer becomes aware of better pricing offered by the Contractor for substantially the same or a smaller quantity of a product outside the Contract, but upon the same or similar terms of the Contract, then at the discretion of the Customer the price under the Contract shall be immediately reduced to the lower price.
- (c) Sales Promotions. In addition to decreasing prices for the balance of the Contract term due to a change in market conditions, a Contractor may conduct sales promotions involving price reductions for a specified lesser period. A Contractor shall submit to the Contract Specialist documentation identifying the proposed (1) starting and ending dates of the promotion, (2) products involved, and (3) promotional prices compared to then-authorized prices. Promotional prices shall be available to all Customers. Upon approval, the Contractor shall provide conspicuous notice of the promotion.
- (d) Trade-In. Customers may trade-in equipment when making purchases from the Contract. A trade-in shall be negotiated between the Customer and the Contractor. Customers are obligated to actively seek current fair market value when trading equipment, and to keep accurate records of the process. For State agencies, it may be necessary to provide documentation to the Department of Financial Services and to the agency property custodian pursuant to Chapter 273, F.S.
- (e) Equitable Adjustment. The Customer may, in its sole discretion, make an equitable adjustment in the Contract terms or pricing if pricing or availability of supply is affected by extreme and unforeseen volatility in the marketplace, that is, by circumstances that satisfy all the following criteria: (1) the volatility is due to causes wholly beyond the Contractor's control, (2) the volatility affects the marketplace or industry, not just the particular Contract source of supply, (3) the effect on pricing or availability of supply is substantial, and (4) the volatility so affects the Contractor that continued performance of the Contract would result in a substantial loss.

5. Additional Quantities.

For a period not exceeding ninety (90) days from the date of solicitation award, the Customer reserves the right to acquire additional quantities up to the amount shown on the solicitation but not to exceed the threshold for Category Two at the prices submitted in the response to the solicitation.

6. Packaging.

Tangible product shall be securely and properly packed for shipment, storage, and stocking in appropriate, clearly labeled, shipping containers and according to accepted commercial practice, without extra charge for packing materials, cases, or other types of containers. All containers and packaging shall become and remain Customer's property.

7. Inspection at Contractor's Site.

The Customer reserves the right to inspect, at any reasonable time with prior notice, the equipment or product or plant or other facilities of a Contractor to assess conformity with Contract requirements and to determine whether they are adequate and suitable for proper and effective Contract performance.

8. Safety Standards.

All manufactured items and fabricated assemblies subject to operation under pressure, operation by connection to an electric source, or operation involving connection to a manufactured, natural, or LP gas source shall be constructed and approved in a manner acceptable to the appropriate State inspector. Acceptability customarily requires, at a minimum, identification marking of the appropriate safety standard organization, where such approvals of listings have been established for the type of device offered and furnished, for example: the American Society of Mechanical Engineers for pressure vessels; the Underwriters Laboratories and/or National Electrical Manufacturers' Association for electrically operated assemblies; and the American Gas Association for gas-operated assemblies. In addition, all items furnished shall meet all applicable requirements of the Occupational Safety and Health Act and state and federal requirements relating to clean air and water pollution.

9. Americans with Disabilities Act.

Contractors should identify any products that may be used or adapted for use by visually, hearing, or other physically impaired individuals.

10. Literature.

Upon request, the Contractor shall furnish literature reasonably related to the product offered, for example, user manuals, price schedules, catalogs, descriptive brochures, etc.

11. Transportation and Delivery.

Prices shall include all charges for packing, handling, freight, distribution, and inside delivery. Transportation of goods shall be FOB Destination to any point within thirty (30) days after the Customer places an Order. A Contractor, within five (5) days after receiving a purchase order, shall notify the Customer of any potential delivery delays. Evidence of inability or intentional delays shall be cause for Contract cancellation and Contractor suspension.

12. Installation.

Where installation is required, Contractor shall be responsible for placing and installing the product in the required locations at no additional charge, unless otherwise designated on the Contract or purchase order. Contractor's authorized product and price list shall

clearly and separately identify any additional installation charges. All materials used in the installation shall be of good quality and shall be free of defects that would diminish the appearance of the product or render it structurally or operationally unsound. Installation includes the furnishing of any equipment, rigging, and materials required to install or replace the product in the proper location. Contractor shall protect the site from damage and shall repair damages or injury caused during installation by Contractor or its employees or agents. If any alteration, dismantling, excavation, etc., is required to achieve installation, the Contractor shall promptly restore the structure or site to its original condition. Contractor shall perform installation work so as to cause the least inconvenience and interference with Customers and with proper consideration of others on site. Upon completion of the installation, the location and surrounding area of work shall be left clean and in a neat and unobstructed condition, with everything in satisfactory repair and order.

13. Risk of Loss.

Matters of inspection and acceptance are addressed in s. 215.422, F.S. Until acceptance, risk of loss or damage shall remain with the Contractor. The Contractor shall be responsible for filing, processing, and collecting all damage claims. To assist the Contractor with damage claims, the Customer shall: record any evidence of visible damage on all copies of the delivering carrier's Bill of Lading; report damages to the carrier and the Contractor; and provide the Contractor with a copy of the carrier's Bill of Lading and damage inspection report. When a Customer rejects a product, Contractor shall remove it from the premises within ten days after notification or rejection. Upon rejection notification, the risk of loss of rejected or non-conforming product shall remain with the Contractor. Rejected product not removed by the Contractor within ten days shall be deemed abandoned by the Contractor, and the Customer shall have the right to dispose of it as its own property. Contractor shall reimburse the Customer for costs and expenses incurred in storing or effecting removal or disposition of rejected product.

14. Transaction Fee.

The State of Florida has instituted MyFloridaMarketPlace, a statewide eProcurement System ("System"). Pursuant to section 287.057(23), Florida Statutes (2002), all payments shall be assessed a Transaction Fee of one percent (1.0%), which the Contractor shall pay to the State, unless exempt pursuant to 60A-1.032, F.A.C.

For payments within the State accounting system (FLAIR or its successor), the Transaction Fee shall, when possible, be automatically deducted from payments to the Contractor. If automatic deduction is not possible, the Contractor shall pay the Transaction Fee pursuant to Rule 60A-1.031(2), F.A.C. By submission of these reports and corresponding payments, Contractor certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee.

Contractor shall receive a credit for any Transaction Fee paid by the Contractor for the purchase of any item(s) if such item(s) are returned to the Contractor through no fault, act, or omission of the Contractor. Notwithstanding the foregoing, a Transaction Fee is non-refundable when an item is rejected or returned, or declined, due to the Contractor's failure to perform or comply with specifications or requirements of the agreement.

Failure to comply with these requirements shall constitute grounds for declaring the Contractor in default and recovering reprocurement costs from the Contractor in addition to all outstanding fees. **CONTRACTORS DELINQUENT IN PAYING TRANSACTION FEES MAY BE SUBJECT TO BEING REMOVED FROM THE DEPARTMENT OF MANAGEMENT SERVICES' VENDOR LIST AS PROVIDED IN RULE 60A-1.006, F.A.C.**

15. Invoicing and Payment.

Invoices shall contain the Contract number, purchase order number if applicable, and the appropriate vendor identification number. The State may require any other information from the Contractor that the State deems necessary to verify any purchase order placed under the Contract.

At the State's option, Contractors may be required to invoice electronically pursuant to guidelines of the Department of Management Services. Current guidelines require that Contractor supply electronic invoices in lieu of paper-based invoices for those transactions processed through the system. Electronic invoices shall be submitted to the Customer through the Ariba Supplier Network (ASN) in one of the following mechanisms – EDI 810, cXML, or web-based invoice entry within the ASN.

Payment shall be made in accordance with sections 215.422 and 287.0585 of the Florida Statutes, which govern time limits for payment of invoices. Invoices that must be returned to a Contractor due to preparation errors will result in a delay in payment. Contractors may call (850) 413-7269 Monday through Friday to inquire about the status of payments by State Agencies. The Customer is responsible for all payments under the Contract. A Customer's failure to pay, or delay in payment, shall not constitute a breach of the Contract and shall not relieve the Contractor of its obligations to the Department or to other Customers.

16. Taxes.

The State does not pay Federal excise or sales taxes on direct purchases of tangible personal property. The State will not pay for any personal property taxes levied on the Contractor or for any taxes levied on employees' wages. Any exceptions to this paragraph shall be explicitly noted by the Customer in the special contract conditions section of the solicitation or in the Contract or purchase order.

17. Governmental Restrictions.

If the Contractor believes that any governmental restrictions have been imposed that require alteration of the material, quality, workmanship or performance of the products offered under the Contract, the Contractor shall immediately notify the Customer in writing, indicating the specific restriction. The Customer reserves the right and the complete discretion to accept any such alteration or to cancel the Contract at no further expense to the Customer.

18. Lobbying and Integrity.

Customers shall ensure compliance with Section 11.062, FS and Section 216.347, FS. The Contractor shall not, in connection with this or any other agreement with the State,

directly or indirectly (1) offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for any State officer or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (2) offer, give, or agree to give to anyone any gratuity for the benefit of, or at the direction or request of, any State officer or employee. For purposes of clause (2), "gratuity" means any payment of more than nominal monetary value in the form of cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind. Upon request of the Customer's Inspector General, or other authorized State official, the Contractor shall provide any type of information the Inspector General deems relevant to the Contractor's integrity or responsibility. Such information may include, but shall not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor shall retain such records for the longer of (1) three years after the expiration of the Contract or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: <http://dls.dos.state.fl.us/barm/genschedules/gensched.htm>). The Contractor agrees to reimburse the State for the reasonable costs of investigation incurred by the Inspector General or other authorized State official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State which results in the suspension or debarment of the Contractor. Such costs shall include, but shall not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for any costs of investigations that do not result in the Contractor's suspension or debarment.

19. Indemnification.

The Contractor shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless the State and Customers, and their officers, agents, and employees, from suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Contractor, its agents, employees, partners, or subcontractors, provided, however, that the Contractor shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of the State or a Customer.

Further, the Contractor shall fully indemnify, defend, and hold harmless the State and Customers from any suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to violation or infringement of a trademark, copyright, patent, trade secret or intellectual property right, provided, however, that the foregoing obligation shall not apply to a Customer's misuse or modification of Contractor's products or a Customer's operation or use of Contractor's products in a manner not contemplated by the Contract or the purchase order. If any product is the subject of an infringement suit, or in the Contractor's opinion is likely to become the subject of such a suit, the Contractor may at its sole expense procure for the Customer the right to continue using the product or to modify it to become non-infringing. If the Contractor is not reasonably able to modify or otherwise secure the

Customer the right to continue using the product, the Contractor shall remove the product and refund the Customer the amounts paid in excess of a reasonable rental for past use. The customer shall not be liable for any royalties.

The Contractor's obligations under the preceding two paragraphs with respect to any legal action are contingent upon the State or Customer giving the Contractor (1) written notice of any action or threatened action, (2) the opportunity to take over and settle or defend any such action at Contractor's sole expense, and (3) assistance in defending the action at Contractor's sole expense. The Contractor shall not be liable for any cost, expense, or compromise incurred or made by the State or Customer in any legal action without the Contractor's prior written consent, which shall not be unreasonably withheld.

20. Limitation of Liability.

For all claims against the Contractor under any contract or purchase order, and regardless of the basis on which the claim is made, the Contractor's liability under a contract or purchase order for direct damages shall be limited to the greater of \$100,000, the dollar amount of the contract or purchase order, or two times the charges rendered by the Contractor under the purchase order. This limitation shall not apply to claims arising under the Indemnity paragraph contain in this agreement.

Unless otherwise specifically enumerated in the Contract or in the purchase order, no party shall be liable to another for special, indirect, punitive, or consequential damages, including lost data or records (unless the contract or purchase order requires the Contractor to back-up data or records), even if the party has been advised that such damages are possible. No party shall be liable for lost profits, lost revenue, or lost institutional operating savings. The State and Customer may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them. The State may set off any liability or other obligation of the Contractor or its affiliates to the State against any payments due the Contractor under any contract with the State.

21. Suspension of Work.

The Customer may in its sole discretion suspend any or all activities under the Contract or purchase order, at any time, when in the best interests of the State to do so. The Customer shall provide the Contractor written notice outlining the particulars of suspension. Examples of the reason for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, the Contractor shall comply with the notice and shall not accept any purchase orders. Within ninety days, or any longer period agreed to by the Contractor, the Customer shall either (1) issue a notice authorizing resumption of work, at which time activity shall resume, or (2) terminate the Contract or purchase order. Suspension of work shall not entitle the Contractor to any additional compensation.

22. Termination for Convenience.

The Customer, by written notice to the Contractor, may terminate the Contract in whole or in part when the Customer determines in its sole discretion that it is in the State's interest to do so. The Contractor shall not furnish any product after it receives the notice of termination, except as necessary to complete the continued portion of the Contract, if any. The Contractor shall not be entitled to recover any cancellation charges or lost profits.

23. Termination for Cause.

The Customer may terminate the Contract if the Contractor fails to (1) deliver the product within the time specified in the Contract or any extension, (2) maintain adequate progress, thus endangering performance of the Contract, (3) honor any term of the Contract, or (4) abide by any statutory, regulatory, or licensing requirement. Rule 60A-1.006(3), F.A.C., governs the procedure and consequences of default. The Contractor shall continue work on any work not terminated. Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the Contract arises from events completely beyond the control, and without the fault or negligence, of the Contractor. If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both the Contractor and the subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted products were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule. If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Customer. The rights and remedies of the Customer in this clause are in addition to any other rights and remedies provided by law or under the Contract.

24. Force Majeure, Notice of Delay, and No Damages for Delay.

The Contractor shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Contractor's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to the Contractor. In case of any delay the Contractor believes is excusable, the Contractor shall notify the Customer in writing of the delay or potential delay and describe the cause of the delay either (1) within ten (10) days after the cause that creates or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five (5) days after the date the Contractor first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE CONTRACTOR'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY.** Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against the Customer. The Contractor shall not be entitled to an increase in the Contract

price or payment of any kind from the Customer for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor shall perform at no increased cost, unless the Customer determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the State or to Customers, in which case the Customer may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to Customers with respect to products subjected to allocation, or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the products that are the subject of the delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

25. Changes.

The Customer may unilaterally require, by written order, changes altering, adding to, or deducting from the Contract specifications, provided that such changes are within the general scope of the Contract. The Customer may make an equitable adjustment in the Contract price or delivery date if the change affects the cost or time of performance. Such equitable adjustments require the written consent of the Contractor, which shall not be unreasonably withheld. If unusual quantity requirements arise, the Customer may solicit separate bids to satisfy them.

26. Renewal.

Upon mutual agreement, the Customer and the Contractor may renew the Contract, in whole or in part, for a period that may not exceed 3 years or the term of the contract, whichever period is longer. Any renewal shall specify the renewal price, as set forth in the solicitation response. The renewal must be in writing and signed by both parties, and is contingent upon satisfactory performance evaluations and subject to availability of funds.

27. Purchase Order Duration.

Purchase orders issued pursuant to a state term or agency contract must be received by the Contractor no later than close of business on the last day of the contract's term to be considered timely. The Contractor is obliged to fill those orders in accordance with the contract's terms and conditions. Purchase orders received by the contractor after close of business on the last day of the state term or agency contract's term shall be considered void.

Purchase orders for a one-time delivery of commodities or performance of contractual services shall be valid through the performance by the Contractor, and all terms and conditions of the state term or agency contract shall apply to the single delivery/performance, and shall survive the termination of the Contract.

Contractors are required to accept purchase orders specifying delivery schedules exceeding the contracted schedule even when such extended delivery will occur after expiration of the state term or agency contract. For example, if a state term contract calls for delivery 30 days after receipt of order (ARO), and an order specifies delivery will occur both in excess of 30 days ARO and after expiration of the state term contract, the Contractor will accept the order. However, if the Contractor expressly and in writing notifies the ordering office within ten (10) calendar days of receipt of the purchase order that Contractor will not accept the extended delivery terms beyond the expiration of the state term contract, then the purchase order will either be amended in writing by the ordering entity within ten (10) calendar days of receipt of the contractor's notice to reflect the state term contract delivery schedule, or it shall be considered withdrawn.

The duration of purchase orders for recurring deliveries of commodities or performance of services shall not exceed the expiration of the state term or agency contract by more than twelve months. However, if an extended pricing plan offered in the state term or agency contract is selected by the ordering entity, the contract terms on pricing plans and renewals shall govern the maximum duration of purchase orders reflecting such pricing plans and renewals.

Timely purchase orders shall be valid through their specified term and performance by the Contractor, and all terms and conditions of the state term or agency contract shall apply to the recurring delivery/performance as provided herein, and shall survive the termination of the Contract.

Ordering offices shall not renew a purchase order issued pursuant to a state term or agency contract if the underlying contract expires prior to the effective date of the renewal.

28. Advertising.

Subject to Chapter 119, Florida Statutes, the Contractor shall not publicly disseminate any information concerning the Contract without prior written approval from the Customer, including, but not limited to mentioning the Contract in a press release or other promotional material, identifying the Customer or the State as a reference, or otherwise linking the Contractor's name and either a description of the Contract or the name of the State or the Customer in any material published, either in print or electronically, to any entity that is not a party to Contract, except potential or actual authorized distributors, dealers, resellers, or service representative.

29. Assignment.

The Contractor shall not sell, assign or transfer any of its rights, duties or obligations under the Contract, or under any purchase order issued pursuant to the Contract, without the prior written consent of the Customer. In the event of any assignment, the Contractor remains secondarily liable for performance of the contract, unless the Customer expressly waives such secondary liability. The Customer may assign the Contract with prior written notice to Contractor of its intent to do so.

30. Antitrust Assignment.

The Contractor and the State of Florida recognize that in actual economic practice, overcharges resulting from antitrust violations are in fact usually borne by the State of Florida. Therefore, the contractor hereby assigns to the State of Florida any and all claims for such overcharges as to goods, materials or services purchased in connection with the Contract.

31. Dispute Resolution.

Any dispute concerning performance of the Contract shall be decided by the Customer's designated contract manager, who shall reduce the decision to writing and serve a copy on the Contractor. The decision shall be final and conclusive unless within twenty one (21) days from the date of receipt, the Contractor files with the Customer a petition for administrative hearing. The Customer's decision on the petition shall be final, subject to the Contractor's right to review pursuant to Chapter 120 of the Florida Statutes. Exhaustion of administrative remedies is an absolute condition precedent to the Contractor's ability to pursue any other form of dispute resolution; provided, however, that the parties may employ the alternative dispute resolution procedures outlined in Chapter 120.

Without limiting the foregoing, the exclusive venue of any legal or equitable action that arises out of or relates to the Contract shall be the appropriate state court in Leon County, Florida; in any such action, Florida law shall apply and the parties waive any right to jury trial.

32. Employees, Subcontractors, and Agents.

All Contractor employees, subcontractors, or agents performing work under the Contract shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Contractor shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under the Contract must comply with all security and administrative requirements of the Customer and shall comply with all controlling laws and regulations relevant to the services they are providing under the Contract. The State may conduct, and the Contractor shall cooperate in, a security background check or otherwise assess any employee, subcontractor, or agent furnished by the Contractor. The State may refuse access to, or require replacement of, any personnel for cause, including, but not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with a Customer's security or other requirements. Such approval shall not relieve the Contractor of its obligation to perform all work in compliance with the Contract. The State may reject and bar from any facility for cause any of the Contractor's employees, subcontractors, or agents.

33. Security and Confidentiality.

The Contractor shall comply fully with all security procedures of the United States, State of Florida and Customer in performance of the Contract. The Contractor shall not divulge to third parties any confidential information obtained by the Contractor or its agents, distributors, resellers, subcontractors, officers or employees in the course of

performing Contract work, including, but not limited to, security procedures, business operations information, or commercial proprietary information in the possession of the State or Customer. The Contractor shall not be required to keep confidential information or material that is publicly available through no fault of the Contractor, material that the Contractor developed independently without relying on the State's or Customer's confidential information, or material that is otherwise obtainable under State law as a public record. To insure confidentiality, the Contractor shall take appropriate steps as to its personnel, agents, and subcontractors. The warranties of this paragraph shall survive the Contract.

34. Contractor Employees, Subcontractors, and Other Agents.

The Customer and the State shall take all actions necessary to ensure that Contractor's employees, subcontractors and other agents are not employees of the State of Florida. Such actions include, but are not limited to, ensuring that Contractor's employees, subcontractors, and other agents receive benefits and necessary insurance (health, workers' compensations, and unemployment) from an employer other than the State of Florida.

35. Insurance Requirements.

During the Contract term, the Contractor at its sole expense shall provide commercial insurance of such a type and with such terms and limits as may be reasonably associated with the Contract. Providing and maintaining adequate insurance coverage is a material obligation of the Contractor. Upon request, the Contractor shall provide certificate of insurance. The limits of coverage under each policy maintained by the Contractor shall not be interpreted as limiting the Contractor's liability and obligations under the Contract. All insurance policies shall be through insurers authorized or eligible to write policies in Florida.

36. Warranty of Authority.

Each person signing the Contract warrants that he or she is duly authorized to do so and to bind the respective party to the Contract.

37. Warranty of Ability to Perform.

The Contractor warrants that, to the best of its knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish the Contractor's ability to satisfy its Contract obligations. The Contractor warrants that neither it nor any affiliate is currently on the convicted vendor list maintained pursuant to section 287.133 of the Florida Statutes, or on any similar list maintained by any other state or the federal government. The Contractor shall immediately notify the Customer in writing if its ability to perform is compromised in any manner during the term of the Contract.

38. Notices.

All notices required under the Contract shall be delivered by certified mail, return receipt requested, by reputable air courier service, or by personal delivery to the agency designee identified in the original solicitation, or as otherwise identified by the

Customer. Notices to the Contractor shall be delivered to the person who signs the Contract. Either designated recipient may notify the other, in writing, if someone else is designated to receive notice.

39. Leases and Installment Purchases.

Prior approval of the Chief Financial Officer (as defined in Section 17.001, F.S.) is required for State agencies to enter into or to extend any lease or installment-purchase agreement in excess of the Category Two amount established by section 287.017 of the Florida Statutes.

40. Prison Rehabilitative Industries and Diversified Enterprises, Inc. (PRIDE).

Section 946.515(2), F.S. requires the following statement to be included in the solicitation: "It is expressly understood and agreed that any articles which are the subject of, or required to carry out, the Contract shall be purchased from the corporation identified under Chapter 946 of the Florida Statutes (PRIDE) in the same manner and under the same procedures set forth in section 946.515(2) and (4) of the Florida Statutes; and for purposes of the Contract the person, firm, or other business entity carrying out the provisions of the Contract shall be deemed to be substituted for the agency insofar as dealings with such corporation are concerned." Additional information about PRIDE and the products it offers is available at <http://www.pridefl.com>.

41. Products Available from the Blind or Other Handicapped.

Section 413.036(3), F.S. requires the following statement to be included in the solicitation: "It is expressly understood and agreed that any articles that are the subject of, or required to carry out, this contract shall be purchased from a nonprofit agency for the Blind or for the Severely Handicapped that is qualified pursuant to Chapter 413, Florida Statutes, in the same manner and under the same procedures set forth in section 413.036(1) and (2), Florida Statutes; and for purposes of this contract the person, firm, or other business entity carrying out the provisions of this contract shall be deemed to be substituted for the State agency insofar as dealings with such qualified nonprofit agency are concerned." Additional information about the designated nonprofit agency and the products it offers is available at <http://www.respectofflorida.org>.

42. Modification of Terms.

The Contract contains all the terms and conditions agreed upon by the parties, which terms and conditions shall govern all transactions between the Customer and the Contractor. The Contract may only be modified or amended upon mutual written agreement of the Customer and the Contractor. No oral agreements or representations shall be valid or binding upon the Customer or the Contractor. No alteration or modification of the Contract terms, including substitution of product, shall be valid or binding against the Customer. The Contractor may not unilaterally modify the terms of the Contract by affixing additional terms to product upon delivery (e.g., attachment or inclusion of standard preprinted forms, product literature, "shrink wrap" terms accompanying or affixed to a product, whether written or electronic) or by incorporating such terms onto the Contractor's order or fiscal forms or other documents forwarded by the Contractor for payment. The Customer's acceptance of product or processing of

documentation on forms furnished by the Contractor for approval or payment shall not constitute acceptance of the proposed modification to terms and conditions.

43. Cooperative Purchasing.

Pursuant to their own governing laws, and subject to the agreement of the Contractor, other entities may be permitted to make purchases at the terms and conditions contained herein. Non-Customer purchases are independent of the agreement between Customer and Contractor, and Customer shall not be a party to any transaction between the Contractor and any other purchaser.

State agencies wishing to make purchases from this agreement are required to follow the provisions of s. 287.042(16)(a), F.S. This statute requires the Department of Management Services to determine that the requestor's use of the contract is cost-effective and in the best interest of the State.

44. Waiver.

The delay or failure by the Customer to exercise or enforce any of its rights under this Contract shall not constitute or be deemed a waiver of the Customer's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

45. Annual Appropriations.

The State's performance and obligation to pay under this contract are contingent upon an annual appropriation by the Legislature.

46. Execution in Counterparts.

5.1 Purchasing Card Program.

The State of Florida has implemented a purchasing card program, using the Visa platform. Vendors may receive payment from state agencies by the purchasing card in the same manner as other Visa purchases. Visa acceptance is mandatory but is not the exclusive method of payment.

5.2 Product Acceptance.

Unless otherwise provided by mutual agreement of the Eligible Users and the Contractor, Eligible User(s) shall have thirty (30) days from the date of delivery to accept all newly licensed software Product(s). Eligible users shall accept renewal of software maintenance or renewal of software licenses upon the effective date of the Eligible User contract or purchase order. Where the Contractor is responsible for installation, acceptance shall be from completion of installation, configuration and setup, including training, as specified in the Eligible User contract or purchase order. Failure to provide notice of acceptance or rejection or a deficiency statement to the Contractor by the end of the period provided for under this clause constitutes acceptance by the Eligible User(s) as of the expiration of that period. The License Term shall be extended by the time periods allowed for trial use, testing and acceptance unless the Eligible User agrees to accept the Product at completion of trial use.

Unless otherwise provided by mutual agreement of the Eligible User and the Contractor, Eligible User shall have the option to run testing on the Product prior to acceptance, such tests and data sets to be specified by Eligible User. Where using its own data or tests, Eligible User must have the tests or representative set of data available upon delivery.

This demonstration will take the form of a documented installation test, capable of observation by the Eligible User, and shall be made part of the Contractor's standard documentation. The test data shall remain accessible to the Eligible User after completion of the test.

In the event that the documented installation test cannot be completed successfully within the specified acceptance period, and the Contractor or Product is responsible for the delay, Eligible User shall have the option to cancel the order in whole or in part, or to extend the testing period for an additional thirty (30) day increment. The Eligible User shall notify Contractor of acceptance upon successful completion of the documented installation test. Such cancellation shall not give rise to any cause of action against the Eligible User for damages, loss of profits, expenses, or other remuneration of any kind.

If the Eligible User elects to provide a deficiency statement specifying how the product fails to meet the specifications within the testing period, the Contractor shall have thirty (30) days to correct the deficiency, and the Eligible User shall have an additional thirty (30) days to evaluate the Product as provided herein. If the Product does not meet the specifications at the end of the extended testing period, the Eligible User, upon prior

written notice to the Contractor, may then reject the Product and return all defective Product to the Contractor, and the Contractor shall refund any monies paid by the Eligible User to Contractor. Costs and liabilities associated with a failure of the Product to perform in accordance with the functionality tests or product specifications during the acceptance period shall be borne fully by the Contractor to the extent that said costs or liabilities shall not have been caused by negligent or willful acts or omissions of the Eligible User's agents or employees.

5.3 Ownership/Title.

Title and ownership to Software Product(s) delivered by the Contractor under the Contract to an Eligible User under a valid Eligible User contract or purchase order that is normally commercially distributed on a license basis by the Contractor or other third party products which are included under any contract resulting from this solicitation, shall remain with the Contractor or Microsoft. Effective upon acceptance, such Product shall be licensed to Eligible Users in accordance with the Contractor or Microsoft's standard license agreement, provided, however, that such standard license, must, at a minimum: (a) grant the Eligible Users a non-exclusive, perpetual license to use, execute, reproduce, display, perform, adapt (unless Contractor advises Eligible Users as part of Contractor's proposal that adaptation will violate existing agreements or statutes and Contractor demonstrates such to the Eligible User's satisfaction) and distribute Existing Licensed Product to the Eligible User up to the license capacity stated in the Purchase Order or work order with all license rights necessary to fully effect the general business purpose(s) stated in the Bid or Eligible User's contract or Purchase Order and (b) recognize the State of Florida as the licensee where the Eligible User is a state agency, department, board, commission, office or institution. Where these rights are not otherwise covered by Microsoft's standard license agreement, the Contractor shall be responsible for obtaining these rights at its sole cost and expense. The Eligible User shall reproduce all copyright notices and any other legend of ownership on any copies authorized under this paragraph. See Section 6.4 (e) for transfer of license language, which shall apply to all software purchased under this agreement.

5.4 Proof of License.

The Contractor must provide to each Eligible User either: (i) the Contractor's certified license confirmation certificates in the name of such Licensee; or (ii) a written confirmation from the Contractor or Microsoft accepting the Eligible User's contract or purchase order as proof of license. Contractor shall submit the certificate, or alternatively such written confirmation from Microsoft to the benefit of the Eligible User. Such certificates must be in a form acceptable to the Eligible User.

5.5 Product Version.

Purchase Orders shall be deemed to reference the Contractor's most recently released model or version of the Product at time of order, unless an earlier model or version is specifically requested in writing by the Eligible User and the Contractor is willing to provide such version.

5.6 Changes to Product or Service Offerings.

- a. **Product or Service Discontinuance** In the event that Microsoft publicly announces to all U.S. customers ("date of notice") that a Product, maintenance, or technical support offering is being re-bundled in a different manner from the structure or licensing model of the prior U.S. commercial offering, the Contractor shall be required to: (i) notify the Contract Manager and each Eligible User in writing of the intended change; (ii) continue to provide Product or withdrawn support upon the same terms and conditions as previously offered on the then-current State of Florida Contract for the greater of: a) the best terms offered by the Contractor to any other customer, or b) not less than twelve (12) months from the date of notice; and (iii) shall submit the proposed re-bundling change to the Contract Manager for approval prior to its becoming effective for the remainder of the Contract term.

The Contractor shall be required to: (i) provide the notice required under the paragraph above, to the entities described within five (5) business days of the Contractor receiving notice from Microsoft, and (ii) include in such notice the period of time from the date of notice that Microsoft will continue to provide Product or withdraw support.

The provisions of this subdivision (a) shall not apply or eliminate the Contractor's obligations where withdrawn support is being provided by Microsoft. In the event that Microsoft ceases to provide service, the Contractor shall be responsible for subcontracting such service, subject to state approval, to an alternate Subcontractor.

- b. **No Hardship/Passive License Monitoring**. Unless an Eligible User is otherwise specifically advised to the contrary in writing at the time of order and prior to purchase, the Contractor hereby warrants and represents that the Product and all Upgrades do not and will not contain any computer code that would disable the Product or Upgrades or impair in any way its operation based on the elapsing of a period of time, exceeding an authorized number of copies, advancement to a particular date or other numeral, or other similar self-destruct mechanisms (sometimes referred to as "time bombs," "time locks," or "drop dead" devices) or that would permit Contractor to access the Product to cause such disablement or impairment (sometimes referred to as a "trap door" device). Contractor agrees that in the event of a breach or alleged breach of this provision that Eligible User shall not have an adequate remedy at law, including monetary damages, and that Eligible User shall consequently be entitled to seek a temporary restraining order, injunction, or other form of equitable relief against the continuance of such breach, in addition to any and all remedies to which Authorized User shall be entitled.

5.7 Contract Service Requirements.

Requests by State Agencies and Eligible Users for Product Literature, Price Lists, and Specifications must be provided within five (5) working days after receipt of written request, at no charge to Eligible Users. However, the Department reserves the right to

review and approve all Product Literature, Price Lists, and promotional materials before distribution to State Agencies and Eligible Users.

Awarded contractor(s) shall have a single point of contact for customer support. This individual may support multiple Eligible Users and respond to Eligible User calls and/or emails within twenty-four (24) hours. Submission of the Contract Sales Summaries shall be the responsibility of the Contractor without prompting or notification by the Contract Manager. The Contractor will submit the completed Contract Sales Summary report by email to the Contract Manager.

5.11 Implementation of Contract.

In order to streamline the procurement process and ease of use for state agency buyers, the Contractor may provide its catalog data electronically using the State's eProcurement system through a "punch-out" solution in which the Agency accesses the Contractor's website directly from the system, rather than the system maintaining the Contractor's data. This solution must allow the Agency to reach the Contractor's site, browse for Contracted items only, and return to the system with a list of items ready to be inserted into a requisition. Returned product information must include, but is not limited to, Contractor name, brand/manufacturer, SKU, product name, brief description (for supplies, include what machine product is for), recycled content flag, approved green product flag, certifying green label / standard, unit of measure, and price.

The Contractor will have up to sixty (60) days, after contract award, to establish a State Contract punch-out website or up to thirty (30) days to establish a Line Item Catalog. The MyFloridaMarketPlace ("MFMP") third-party Service Provider, Accenture, is responsible for working with Contractor to assist in the implementation of a punch-out solution with the eProcurement System or a Line Item Catalog in Aravo. To accomplish this conversion, the awarded Contractor shall provide requested information directly to the Service Provider in the format required by the Service Provider. No costs or expenses associated with providing this information shall be charged to the Department, Eligible Users, or Service Provider.

Contractor punch-out solution must meet the following requirements:

- The solution must conform to cXML 1.0 or 1.1 standards.
- The solution must conform to the technical specifications and implementation requirements provided by Accenture, and the Contractor must work with Accenture to ensure successful integration of the punch-out solution into the system
- The solution must have the capability to provide only those products awarded under the Contract, and block any non-Contract item(s) from being added to the requisition.
- The punch-out site must provide the Contract Manager, or designee, the ability to audit catalog items and prices and must provide a method to download loaded items and prices into an Excel file format. Audit time and date shall be determined by the Contract Manager and shall occur at random intervals.

(Note: Contractors who currently have e-commerce capabilities should already have the ability to do a punch-out site. See Section 7.10 to review the Punch-out Capability Questionnaire and Section 7.11 to view the Electronic Invoicing Requirements.)

5.12 Contractor's State Contract Webpage.

The Contract resulting from this solicitation will become a public document. State Purchasing is using <http://myflorida.com> on the Internet to distribute State Term Contracts and product information to eligible users and other interested entities.

For the purposes of this section, the contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider of MFMP, a State contractor, the right and license to use, reproduce, transmit, distribute and publicly display within the system the information outlined above. In addition, the

The product may be accessed, used, executed, reproduced, displayed, or performed up to the capacity measured by the applicable licensing unit identified on the purchase order. Licensee shall have the right to use and distribute modifications and customizations of the product to and for use by any Customers otherwise licensed to use the product, provided that any modifications, however extensive, shall not diminish licensor's proprietary title or interest. The maintenance term(s) and any renewals are independent of the Contract term. The Customer may discontinue maintenance at the end of any current maintenance term upon notice to the Contractor; provided, the term shall not automatically renew. If the Customer does not initially acquire, or discontinues, maintenance, the Customer may at any later time reinstate maintenance without any penalties or other charges, by paying the Contractor the amount, if any, that would have been due under the Contract for the period that maintenance had lapsed, or for twelve months, whichever is less.
- e. Transfers/Reassignment: Licensee's operations may be altered, expanded, or diminished. Licenses may be transferred, renegotiated or combined for use at an alternative or consolidated site not originally specified in the license, including transfers between agencies and sites. by the Contractor, and (3) the third party shall maintain a logical or physical partition within its computer system to restrict access to the program to that portion solely dedicated to beneficial use for licensee. Licensee shall not be liable for any third party's compliance or noncompliance with the terms of the nondisclosure agreement, nor shall the nondisclosure agreement create or impose any liabilities on the State or the licensee. Any third party with whom a licensee has a relationship for a State function or business activity shall have the temporary right to use product (e.g., Java applets), provided that such use shall be limited to the period during which the third party is using the product for the function or activity.

- g. Archival Backup: Licensee may use and copy the product and related documentation in conjunction with reproducing a reasonable number of copies for archival backup and disaster recovery procedures.
- h. Source Code Escrow: If either the product manufacturer/developer or the Contractor offers source code or source code escrow to any other commercial customer, or if either entity seeks bankruptcy protection, then the Contractor shall either (1) provide licensee with source code for the product, (2) place the source code in a third-party escrow arrangement with a designated escrow agent, which shall be identified to the Department, and which shall be directed to release the deposited source code in accordance with a standard escrow agreement acceptable to the Department, or (3) certify to the Department that the product manufacturer/developer has named the State, acting by and through the Department, and the licensee, as named beneficiaries of an established escrow arrangement with its designated escrow agent, which shall be identified to the Department and licensee, and which shall be directed to release the deposited source code in accordance with the terms of escrow. Source code, as well as any corrections or enhancements, shall be updated for each new release of the product in the same manner as provided above and such updates shall be certified in writing to the Department. The Contractor shall identify the escrow agent upon commencement of the Contract term and shall certify annually that the escrow remains in effect in compliance with the terms of this paragraph. The State may release the source code to licensees under the Contract which have licensed the product or obtained services, and which may use the copy of the source code to maintain the product.
- i. Confidentiality: The product is a trade secret, copyrighted and propriety product. Licensee and its employees shall not disclose or otherwise distribute or reproduce any product to anyone other than as authorized under the Contract. Licensee shall not remove or destroy any of the Contractor's proprietary markings.
- j. Restricted Use: Except as expressly authorized by the terms of license, licensee shall not: copy the product; cause or permit reverse compilation or reverse

assembly of the product or any portion; or export the product in violation of any U.S. Department of Commerce export administration regulations.

- k. Proof of License: The Contractor shall provide to each licensee that places a purchase order either (1) the product developer's certified license confirmation certificates in the name of the licensee or (2) a written confirmation from the proprietary owner accepting the product invoice as a proof of license. The Contractor shall submit a sample certificate, or alternative confirmation, which shall be in a form acceptable to the licensee.
- l. Audit of Licensed Usage: The Contractor may periodically audit, no more than annually and at its expense, use of licensed product at any site where a copy resides provided that (1) the Contractor gives licensee at least thirty days written advance notice, (2) the audit is conducted during the licensee's normal business hours, (3) the audit is conducted by a State Inspector General's office or, for non-State licensees, by an independent auditor chosen by mutual agreement of the licensee and Contractor as follows: the Contractor shall recommend a minimum of three auditing/accounting firms, from which the licensee shall select one; in no case shall the Business Software Alliance, Software Publishers Association, or Federation Against Software Theft be recommended by the Contractor or used, directly or indirectly, to conduct audits, (4) the Contractor and licensee shall designate a representative who shall be entitled to participate, who shall mutually agree on audit format, and who shall be entitled to copies of all reports, data, or information obtained from the audit, and (5) if the audit shows that the licensee was not in compliance, the licensee shall purchase additional licenses or capacities necessary to bring it into compliance and shall pay for the unlicensed capacity at the Contract price then in effect or, if none, then at the Contractor's U.S. commercial list price. Once such additional licenses and capacities are purchased, licensee shall be deemed to have been in compliance retroactively, and licensee shall have no further liability of any kind for the unauthorized use of the product.
- m. Bankruptcy: The Contract is subject to the terms of section 365(n) of the United States Bankruptcy Code ("Code") if the licensor files a bankruptcy petition. Licensor's failure to perform its continuing obligations shall constitute a material breach of the Contract excusing performance by the licensee. Royalty payments for use of intellectual property shall be separate from and independent of payments for performance of all other obligations under the Contract (e.g., continuing development obligations, maintenance and support obligations, obligations to provide updates, indemnity obligations, etc.). Upon request, the licensor shall furnish licensee any intellectual property, as defined in the Code, and any embodiment of that intellectual property held by the licensor. If licensee must hire third-parties to perform support, maintenance, or development tasks previously performed by licensor, the licensee may provide intellectual property to such third-parties without violating non-disclosure or exclusivity provisions.

The State supports and encourages initiatives to protect and preserve our environment. The Respondent shall submit as part of any response the Respondent's plan to support the procurement of products and materials with recycled content, and the intent of Section 287.045, Florida Statutes. The Respondent shall also provide a plan for reducing and or handling of any hazardous waste generated by Respondent's company. Reference Rule 62-730.160, Florida Administrative Code. It is a requirement of the Florida Department of Environmental Protection that a generator of hazardous waste materials that exceeds a certain threshold must have a valid and current Hazardous Waste Generator Identification Number.
